

GLASS Extra Poster and Billboard Adhesive

Weatherproof poster adhesive with acrylic additives.

Area of application:	Suitable for bonding posters indoors and outdoors	
Technical data:	Raw material basis:	Starch ether, cellulose, polyvinyl acetate powder
	Bulk density:	approx. 0.50 g/cm ³
	pH value:	approx. 8
	Solubility:	Ready for use after approx. 30 minutes
	Consumption:	approx. 200 ml/m ²
Processing:	Mix 1 kg of powder with water in a ratio of 1:18. Add 500 g powder to 9 litres of water.	
	Quickly sprinkle <i>GLASS Extra Poster Adhesive</i> into clean, cold water while stirring vigorously and continue stirring for a short time. Stir again vigorously after approx. 30 minutes maturing time.	
	Apply the adhesive with a brush or suitable spraying device and stick the posters as usual.	
	Do not apply below + 5° Celsius substrate and room temperature! Clean tools with water after use.	
	In order to achieve long-lasting pot preservation, we recommend adding 250 ml of PUFAS Anti-Mould Additive to 10 litres of finished adhesive.	
Storage:	Store in a cool and dry place!	
Article no.:	000905999	
Container size:	Bag with 12.5 kg
